- Destinations
- Schools

Hydrology

- Waterbodies
- River

Transportation

- Interstate
- Highway
- Major Road
- Local
- Railroads

0 0.5 1 2 Miles

NOTE:
Proposed Connections represent the best marriage of technical expertise and public interest in linking destinations as expressed in local community meetings. The routes depicted here illustrate connections between destinations, but not precise routes. Over time, exact routes will be determined, based on an ongoing dialogue with the community and interested potential landowners.

Eminent domain should not be used to acquire properties for greenways or trails.

The Rocky River is a regional asset and as such, properties offered along the Rocky River by willing property owners can be considered for possible CTT greenway and trail development.
