

New Site to Provide Input for Carolina Thread Trail

posted by Editor - May 22, 2009 - 11am EDT

From the The Cleveland County Carolina Thread Trail: Our Master Plan Project is in full swing, and we need your help!

We've created an online project site to help you easily follow the planning process, and even more importantly, give us your thoughts, on such aspects as where new trails should go, and how you would plan to use new trails and greenways in Cleveland County.

Surveys, Message Boards and Photo Sharing are a few of the activities where you can sound off on all project related subjects. All new plans will be posted, for your review, and you'll even get email updates on our progress, and reminders of public meetings you may wish to attend.

To join with your neighbors, fellow hikers, cycle buddies and others, just go to [WWW.WIKIPLANNING.ORG](http://www.wikiplanning.org), and enter the password CCTT (Cleveland County Thread Trail) when prompted. Thanks! Your participation will definitely make a difference...and Ride Safe!
