[excerpted]

The Catawba County Board of County Commissioners has adopted a master plan that will serve as a guide for the development of the Carolina Thread Trail in Catawba County.

The master plan is the outcome of a year-long public process led by a local steering committee.

Catawba County is the ninth county in the 15-county region to adopt a master plan for The Thread, bringing the total planned trails throughout the region to 1,000 miles. For details visit www.catawbalands.org or www.carolinathreadtrail.org.
